### 9.3 Prepare PQ/Technical Bid Envelop

The bidders need to prepare PQ/Technical envelopes by filling up the sought information and providing credentials in documents as per the available templates in the given envelope.

Bid form data can be saved only after encryption with bidder's public key. Data can be edited only after decrypting it with bidder's private key. Unencrypted data cannot be saved on the server. While preparing the tender buyer specifies which bid forms need encryption and which do not. This is to reduce E-GP load by avoiding

encryption where not necessary. Buyer may however choose to make all bid forms encrypted. The bidder has an option to attach applicable documents from his/her 'User Account' online Briefcase on the templates available in the system as shown under given screens shot.

The screenshot displays the 'Government of Haryana eTendering System' interface. At the top, the server time is 10/18/2014 11:16, and the user is identified as 'ankur\_dhiman (Vendor)'.
